

**Amendments to the Claims**

This listing of claims will replace all prior version, and listings, of claims in the application:

**Listing of Claims:**

1-33. (Canceled)

34. (New) A transceiver adapter comprising:

a substrate, including first electrical contacts thereon for electrically contacting a transceiver; and

second electrical contacts along at least one edge of said substrate for electrically contacting a printed wire assembly.

35. (New) The transceiver adapter of Claim 34, wherein said second electrical contacts are finger-shaped.

36. (New) The transceiver adapter of Claim 34, wherein said first electrical contacts are on a first side of said substrate and wherein said second electrical contacts are on a second side of said substrate.

37. (New) The transceiver adapter of Claim 34, wherein said second electrical contacts are arranged in a linear array.

38. (New) The transceiver adapter of Claim 34, wherein said second electrical contacts are along at least two edges of said substrate.

39. (New) A transceiver adapter comprising:

a substrate, including first electrical contacts thereon for electrically contacting a transceiver; and

second electrical contacts along at least one edge of said substrate for electrically contacting a printed wire assembly, wherein said first electrical contacts are a ball grid array.

40. (New) The transceiver adapter of Claim 39, wherein said second electrical contacts are finger-shaped.

41. (New) The transceiver adapter of Claim 39, wherein said first electrical contacts are on a first side of said substrate and wherein said second electrical contacts are on a second side of said substrate.

42. (New) The transceiver adapter of Claim 39, wherein said second electrical contacts are arranged in a linear array.

43. (New) The transceiver adapter of Claim 39, wherein said second electrical contacts are along at least two edges of said substrate.
